VI. Wastewater Activities

Consider all matters incident and related to the issuance and sale of "Greater Texoma Utility Authority Contract Revenue Bonds, Series 2012 (City of Sherman Project)", including the

adoption of a resolution authorizing the issuance of such bonds and delegating certain matters relating to the issuance and sale of such bonds to an authorized official of the Authority. General Manager Chapman reported this item concerns a bond resolution for the City of Sherman, for the City's 2012 Capital Improvement Program, and includes water and wastewater activities. This bond series is a continuation of work undertaken for the City over the years. Mr. Chapman reviewed the activities to be undertaken using the bond funds with the Board. Bids will be taken December 15th for the bonds, with closing in January. Kristen Savant addressed the Board and the bond resolution before them, stating this resolution is a parameter resolution, for new bond money. This allows the pricing of the bonds to be placed with either Dr. Skelton or Mr. Chapman. With the market so volatile, this is a better way to address the bond sale. The delegation lasts for 180 days, allowing more time without having to come before the Board, should interest rates be undesirable at the allotted time to take bids. This bond series is being sold as a public offering; the resolution approves an official statement, which was prepared by Specialized Public Finance, the Authority's financial advisory firm. Disclosure counsel is involved in the issue, and will review the documents for clarity.

Board Member Kirley questioned what range would be expected for the interest rate. Mr. Chapman and Kristen Savant both agreed around 4.5% is the expected interest rate for these bonds. Dr. Skelton stated the bond series covers both water and wastewater activities.

Board Member Grantham motioned to authorize all matters incident and related to the issuance and sale of "Greater Texoma Utility Authority Contract Revenue Bonds, Series 2012 (City of Sherman Project)", including the adoption of a resolution authorizing the issuance of such bonds and delegating certain matters to the General Manager. The motion was seconded by Board Member Kirley and passed unanimously.

Consider and act upon authorization to advertise for bids for "Greater Texoma Utility Authority Contract Revenue Bonds, Series 2012 (City of Sherman Project)"

Mr. Chapman stated permission is always requested at the time of the bond sale to expedite the projects, when time to advertise for bids. Board Member Yeatts motioned to authorize the advertisement for bids for the Sherman 2012 bond issue. The motion was seconded by Board Member Kirley and passed unanimously.

VII. Water Activities

Consider all matters incident and related to the issuance and sale of "Greater Texoma Utility Authority Contract Revenue Bonds, Series 2012 (City of Sherman Project)", including the adoption of a resolution authorizing the issuance of such bonds and delegating certain matters relating to the issuance and sale of such bonds to an authorized official of the Authority.

Discussion and action was completed under Item VI-A.

Consider and act upon authorization to advertise for bids for "Greater Texoma Utility Authority Contract Revenue Bonds, Series 2012 (City of Sherman Project)"

Discussion and action was completed under Item VI-B.

Consider and act upon all matters incident and related to a financing agreement between the Texas Water Development Board and the Greater Texoma Utility Authority relating to the Gainesville Water System Improvements to be financed through the Water Infrastructure Fund.

Mr. Chapman stated this is a financing agreement requested by the Texas Water Development Board. These bonds are being issued on behalf of the City of Gainesville, through the Water Infrastructure Fund, which offers a very low interest rate. The Texas Water Development Board is requiring that the Authority sign a financing agreement, stating if for some reason the Authority does not close on the bonds, a 2.5 % fee will be charged to the Authority for not closing, and the Authority agrees to pay this fee. The TWDB insisted that the document be signed, if the bonds are desired to be utilized by the Authority on behalf of the City of Gainesville for their water projects. Barry Sullivan, City Manager for the City of Gainesville, provided a letter stating the City is ready to proceed with the project. In the event for some reason the bond series is not closed, the Authority does have a fund that could support the fees assessed by the TWDB.

Board Member Kirley motioned to approve a financing agreement between the TWDB and the Authority for the Gainesville Water System Improvements to be financed through the Water Infrastructure Fund. The motion was seconded by Board Member Yeatts and passed unanimously.

Consider and act upon authorization for the purchase of rehabilitation services from Fuquay, Inc. for repairs to the City of Sherman flocculation/sedimentation basins and pipeline at the water treatment plant. This project is in conjunction with the pump station and the raw water pipeline. The pump station was taken down and one more joint has to be replaced on the raw water line. The zebra mussel project, which involves inserting a cleaning device commonly called a "pig" in the line, and extracting the zebra mussels, remains to be completed. The projects are anticipated to be completed within a 60-day time period. The water treatment plant will go back into service when these projects are completed, and the renovations to the flocculation basins need to be taken while the water plant is down. Funds remain from prior bond issues that will be used for payment of these renovations. These services may be acquired through the Texas Cooperative Purchasing Program, from the "Buyboard." Purchasing under these terms meet the bidding requirements for the Authority as well as the City of Sherman.

Board Member Kirley motioned to authorize the purchase of rehabilitation services from Fuquay, Inc. for repairs to the City of Sherman flocculation/sedimentation basins and pipeline at the water treatment plant, the motion was seconded by Board Member Yeatts.

VIII. General Activities

*Receive Monthly Financials

Receive report regarding Government Finance Officers Association's Certificate of Achievement for Excellence in Financial Reporting. Mr. Chapman stated the Authority received another notice from the Government Finance Officers Association that the Authority's financial reports submitted for September 30, 2010 met requirements for excellence in reporting. President Skelton brought a statement in the letter to Mr. Chapman from the Government Finance Officers Association to the Board's attention, which reads "The Certificate of Achievement is the highest form of recognition in governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management."

Consider appointment of Nominating Committee for selection of officers for 2012 calendar year.

President Skelton appointed Duane Hayes, Mark Kuneman, and George Rowland to serve on a Nominating Committee and provide a report at the December 2011 meeting with a recommendation for a slate of officers for the 2012 calendar year.

Receive report from General Manager.

General Manager Chapman stated he met recently with Van Alstyne concerning the contract for services. The services required were outlined by Authority staff for the City staff's review. An application has been forwarded by a consultant to renew the permit for Van Alstyne's wastewater treatment plant. The City is working with the Texas Commission on Environmental Quality to use the funds for a Special Environmental Project. The City is suggesting a project at the wastewater treatment plant for removal of sludge be used for this project. This will allow the use of the funds for the fine to be utilized to bring the plant into compliance with TCEQ regulations.

Mr. Chapman reported NTGCD has their temporary rules in place, and their Management Plan will be adopted in January. A \$0.10 per gallon fee has been assessed by the NTGCD, to provide funds to run the district. One employee has been hired for field technician. Forty-seven golf courses were identified in the NTGCD area.

Red River GCD is working with Allen Plummer and Associates in setting up software for the registration of wells in the district. This district is cooperating with 10 districts in the Trinity Aquifer to deal with the over pumping of this aquifer.

Renovation of the Lake Texoma pipeline is underway to eradicate the zebra mussels from the Lake Texoma raw water pipeline. Photos were taken showing the zebra mussels were distributed to the Board for review.

Financing was approved for wastewater treatment facilities in Krum. A public hearing is being held tonight to discuss the environmental information document associated with this project. The project is being constructed at the same site as the existing plant. The City of Denton is opposing the City of Krum's permit application. Denton currently treats approximately 326 homes in Krum, and was expecting to treat all of the City's waste.

XI. Adjourn

Upon motion by President Skelton, seconded by Secretary/Treasurer Rowland and passed unanimously, the Board adjourned at 1:20PM.

RE: Post Oak Creek WWTP Peak Flow Storage Improvements (City of Sherman)
Award of Contract

On December 8, 2011, seven bids were received for the Post Oak Creek WWTP Peak Flow Storage Improvements project for the City of Sherman. David Gattis, the consulting engineer reviewed the bids received. The low bid was submitted by Vessels Construction, a division of Vescor, Inc. in the amount of \$313,275.40. Funds to pay for these improvements were contained in the GTUA/City of Sherman 2008 bond series.

RECOMMENDATION: Based on the engineer's letter, the General Manager recommends the Board award the contract for the Sherman Post Oak Creek WWTP Peak Flow Storage Improvements Project Phase II to Vessels Construction in the amount of \$313,275.40.

Re: Sherman WWTP Peak Flow Storage Improvements Phase 2 Award

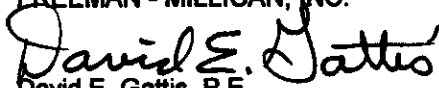

Dear Mr. Chapman:

Bids were received on the WWTP Peak Flow Storage Improvements Phase 2 on December 8, 2011. A tabulation of these bids is attached. The project includes construction of a 30" sewer diversion line from the primary clarifier splitter box to the west biosolids storage basin with discharge structure and splitter box improvements. A culvert between the basins and a lift station renovation are also included.

Seven competitive bids were received. The low bid submitted at \$313,275.40 is about 1% lower than the 2nd bidder and about 9% lower than the 3rd bidder. The low bid is well within the project \$350,000.00 estimate.

The low bidder, Vessels Construction, A Division of Vescor, Inc. has successfully completed a relief sewer project for GTUA/Sherman and has completed other project for Sherman. We recommend that the Greater Texoma Utility Authority award the contract to the low bidder in the amount of \$313,275.40 and authorize the execution of the required contract documents.

Sincerely,
FREEMAN - MILLICAN, INC.

David E. Gattis, P.E.

RE: Extension of Lease Agreement with North Texas Regional Airport

Every other year, the Authority is sent a notice of extension to the lease agreement with the North Texas Regional Airport. This lease agreement is based upon a Consumer Price Index factor for real estate in the Dallas-Fort Worth area. Mike Shahan, the Airport Manager, has forwarded a lease extension from January 1, 2012 to December 31, 2013. The cost adjustment is proposed at 5%. The worksheet used by the North Texas Regional Airport is attached.

ACTION REQUESTED: The Board of Directors is requested to consider authorizing an extension of the lease agreement for the Authority administrative office.

Re: Rental Adjustment

Dear Jerry,

Enclosed you will find two copies of the Addendum to your current building lease agreement for Building #703 at the North Texas Regional Airport.

This Addendum increases the monthly rental fee to \$1,774.75 per month during the term of January 1, 2012 through December 31, 2013. This is a 5.0% increase, based on the Consumer Price Index (CPI). A copy of this is attached.

Please sign both copies of the Addendum, have them notarized, and return them to me. I will then execute my portion and one copy will be returned to you.

Should you have any questions in reference to this, please do not hesitate to call.

Sincerely,

Mike Shahan
Airport Director

- (1) This index series was calculated using a Laspeyres estimator. All other item stratum index series were calculated using a geometric means estimator.
 (2) Index on a December 1982=100 base.
 (3) This index series was formerly titled Gas (piped) and electricity.
 (4) Index on a December 1997=100 base.

Note: The Consumer Price Index (CPI) measures changes in prices of all goods and services purchased for consumption by urban households. The indexes for food at home, energy, and shelter are compiled monthly for Dallas-Fort Worth and Houston. Full surveys, which produce the All Items Indexes and major components, are compiled every two months. These full surveys are published for the odd-numbered months for Dallas-Fort Worth and for the even-numbered months for Houston.

RE: Agenda packet format

In an effort to improve communications to the Board of Directors relating to agenda items, I am proposing to change the format of the agenda communications documents and the agenda format. Instead of the narrative paragraph that has been used in the past, a more concise and easily identifiable format is proposed. A copy of this format is attached for your review.

The agenda would remain unchanged from Item I through Item V. Beginning with Item VI, projects would be identified by project without dividing into water, wastewater or solid waste activities. This procedure would avoid the "double posting," which is now needed when bond issues are considered by the Board of Directors.

ACTION REQUESTED: The General Manager requests the Board consider amending the format of the agenda packet.

RE: January meeting date

Each year, the Board receives the annual audit at the January meeting. However, due to the complexity of the Authority's audit and the limited time frame for the report to be completed, the auditors have difficulties providing the report to the staff with adequate time for review. The staff is recommending the meeting be moved forward one week from January 16th to January 23rd to provide additional time for review of the audit.

ACTION REQUESTED: The General Manager requests the Board consider adjusting the January meeting date to January 23, 2012 in order to provide additional review of the audit report.
